### EPA REPORT RECOMMENDS COOLIMBA POWER

Aviva Corporation Limited (ASX:AVA, BSE:AVIVA) today welcomed the Report and Recommendations of the Environmental Protection Authority (EPA) recommending approval of the Coolimba Power Station in WA's expanding Mid West region.

The EPA approval is subject to strict environmental conditions.

The EPA report on the Central West Coal project has not been released. The Company will make a more detailed release once that report is to hand. The EPA has not provided guidance on when the Central West Coal report will be released.

#### ABOUT COOLIMBA

Coolimba Power is a 400-450MW base load power station in the Mid West based on the Central West Coal project. The project is conveniently located in the northern half of the SWIS power grid to take advantage of demand growth both in the SWIS and from new resource projects in the Mid West Region. The location has the advantage of low cost fuel, available water, adjacent infrastructure, existing mining lease and freehold land.
